Which pile do you want to be in?

Solid houses sold. Outlined houses expired, were withdrawn or were canceled.

What waiting costs

A typical \$247,755 home, per month

Mortgage (principal + interest)	\$1,312
Property taxes	\$135
Homeowners insurance	\$250
Upkeep	\$206
Utilities	\$250
Total	\$2,150

About \$2,150 every month the home sits.

Listings that didn't sell stayed on the market a median of 52 days — roughly \$3,700 in holding costs, and the home still didn't sell.

An example, not a quote: 20% down, 30-year fixed at 6.95% (Freddie Mac average, 2026-09-17); Onslow County rate 0.655 per \$100 (NC Department of Revenue, 2025-26 county rates); town taxes add more inside town limits; insurance, upkeep (1% of value a year) and utilities are typical estimates. If your home is paid off, the mortgage line drops out — the rest still adds up.

Priced right from day one vs. chasing the market

9
median days to sell when priced right
35 homes that sold at 97%+ of first asking

49
median days when price cuts were needed
9 homes · sold for 96.0% of first asking

What this means if you're selling

- Homes priced right from day one sold in a median of 9 days. Homes that needed price cuts took 49 days and sold for 96.0% of their first price.
- Waiting costs money. A \$247,755 home runs about \$2,150 a month to hold — roughly \$3,700 over the time a typical unsold listing sat.
- About 1 in 8 contracts fell apart before closing. Homes that went back on the market sold for 97.9% of first asking, versus 100.0% for homes that closed on the first contract.

17%

never sold

97.9%

sold vs. first ask after a fall-through
vs. 100.0% on the first contract

58

median days to sell after a fall-through
vs. 11 on the first contract

The MLS doesn't record why a contract ends. In our experience the most common reasons are home inspection findings, appraisals that come in below the price, and buyer financing — which is why preparing the home and pricing it to appraise matter before it goes on the market.

How buyers paid on closed sales: conventional loans 9% · cash 9% · VA 66% · FHA 11% · other 5%.

Share of listings that didn't sell, by month

What this means if you're buying

- 50% of homes sold below their first asking price — the first price is often a starting point.
- Homes that sit usually sit for a reason. Listings that didn't sell stayed on the market a median of 52 days.

Did you know?

- 9% of buyers paid cash, and 66% used VA loans.
- A year earlier, 8% of listings didn't sell; now it's 14%.
- When a contract fell apart, 17% of those homes never sold at all.

Every home is different. Buddy Blake will walk you through the numbers for your neighborhood and your price range — no pressure. Call or text (910) 395-1000, or visit buddyblake.ai.

How these numbers are counted

Homes only (single-family, townhomes and condos) in the last 12 months. "Didn't sell" means the listing expired, was withdrawn or was canceled; some owners take a home off the market for reasons that have nothing to do with the market. Days to sell count from the first day a home was listed, including relistings. "First asking" is the first list price. Contract fall-throughs are listings that came back on the market after going under contract. Source: Hive MLS data, compiled by the Buddy Blake Team. Information deemed reliable but not guaranteed.
