What waiting costs

A typical \$612,500 home, per month

Mortgage (principal + interest)	\$3,244
Property taxes	\$175
Homeowners insurance	\$250
Upkeep	\$510
Utilities	\$250
Total	\$4,430

About \$4,430 every month the home sits.

Listings that didn't sell stayed on the market a median of 177 days — roughly \$25,800 in holding costs, and the home still didn't sell.

An example, not a quote: 20% down, 30-year fixed at 6.95% (Freddie Mac average, 2026-09-17); Brunswick County rate 0.342 per \$100 (NC Department of Revenue, 2025-26 county rates); town taxes add more inside town limits; insurance, upkeep (1% of value a year) and utilities are typical estimates. If your home is paid off, the mortgage line drops out — the rest still adds up.

What this means if you're selling

- Homes priced right from day one sold in a median of 12 days. Homes that needed price cuts took 97 days and sold for 93.8% of their first price.
- Waiting costs money. A \$612,500 home runs about \$4,430 a month to hold — roughly \$25,800 over the time a typical unsold listing sat.
- About 1 in 5 contracts fell apart before closing. Homes that went back on the market sold for 94.1% of first asking, versus 96.8% for homes that closed on the first contract.

The MLS doesn't record why a contract ends. In our experience the most common reasons are home inspection findings, appraisals that come in below the price, and buyer financing — which is why preparing the home and pricing it to appraise matter before it goes on the market.

How buyers paid on closed sales: conventional loans 48% · cash 41% · VA 7% · FHA 0% · other 4%.

Share of listings that didn't sell, by month

What this means if you're buying

- 85% of homes sold below their first asking price — the first price is often a starting point.
- Homes that sit usually sit for a reason. Listings that didn't sell stayed on the market a median of 177 days.

Did you know?

- 41% of buyers paid cash, and 7% used VA loans.
- A year earlier, 25% of listings didn't sell; now it's 31%.
- When a contract fell apart, 36% of those homes never sold at all.

How these numbers are counted

Homes only (single-family, townhomes and condos) in the last 12 months. "Didn't sell" means the listing expired, was withdrawn or was canceled; some owners take a home off the market for reasons that have nothing to do with the market. Days to sell count from the first day a home was listed, including relistings. "First asking" is the first list price. Contract fall-throughs are listings that came back on the market after going under contract. Source: Hive MLS data, compiled by the Buddy Blake Team. Information deemed reliable but not guaranteed.
