What waiting costs

A typical \$345,000 home, per month

Mortgage (principal + interest)	\$1,827
Property taxes	\$98
Homeowners insurance	\$250
Upkeep	\$288
Utilities	\$250
Total	\$2,710

About \$2,710 every month the home sits.

Listings that didn't sell stayed on the market a median of 126 days — roughly \$11,200 in holding costs, and the home still didn't sell.

An example, not a quote: 20% down, 30-year fixed at 6.95% (Freddie Mac average, 2026-09-17); Brunswick County rate 0.342 per \$100 (NC Department of Revenue, 2025-26 county rates); town taxes add more inside town limits; insurance, upkeep (1% of value a year) and utilities are typical estimates. If your home is paid off, the mortgage line drops out — the rest still adds up.

The MLS doesn't record why a contract ends. In our experience the most common reasons are home inspection findings, appraisals that come in below the price, and buyer financing — which is why preparing the home and pricing it to appraise matter before it goes on the market.

How buyers paid on closed sales: conventional loans 46% · cash 21% · VA 9% · FHA 20% · other 5%.

How these numbers are counted

Homes only (single-family, townhomes and condos) in the last 12 months. "Didn't sell" means the listing expired, was withdrawn or was canceled; some owners take a home off the market for reasons that have nothing to do with the market. Days to sell count from the first day a home was listed, including relistings. "First asking" is the first list price. Contract fall-throughs are listings that came back on the market after going under contract. Source: Hive MLS data, compiled by the Buddy Blake Team. Information deemed reliable but not guaranteed.
